## AFRICA BIBLE FUND

*Unique Solutions to Africa's Bible Poverty*

### INVESTING IN AFRICA

The number of Christians in Africa has skyrocketed, growing from 10 million believers to 700 million in a little over a century. This growth means that **250 million literate Christians don't have a Bible**. Contrary to what we might think, as much as 90% of Bible poverty in Africa is in three major languages of education: English, French, and Portuguese.

The long-term answer to Africa's Bible poverty is not giving away Bibles; no one can give away enough to meet the need! The answer has to be business. Oasis International has created a sustainable infrastructure to supply the Bibles Africa needs, and a new investment opportunity will accelerate impact.

*250 million literate Christians don't have a bible*

*Most of Africa can be discipled in three reading languages: English, French, and Portuguese*

### WHAT IS THE AFRICA BIBLE FUND?

Africa Bible Fund LLC is a separate for-profit investment entity that alleviates the Bible poverty by supporting the cost of goods sold for Bibles and over 100 other Christian books that build discipleship. Created by Oasis International, this helps ensure high quality English and French Bibles, such as the *Africa Study Bible* and the *New Living Translation Africa Edition Text Bibles*, are readily available for the millions who need them.

## HOW DOES THE FUND WORK?

The supply chain for Bible production can approach 12 months from the ordering of paper until a customer buys their Bible. The Africa Bible Fund uses your investment to supply more Bibles. This bridges the 12 month period from manufacturing to when a customer makes payment.

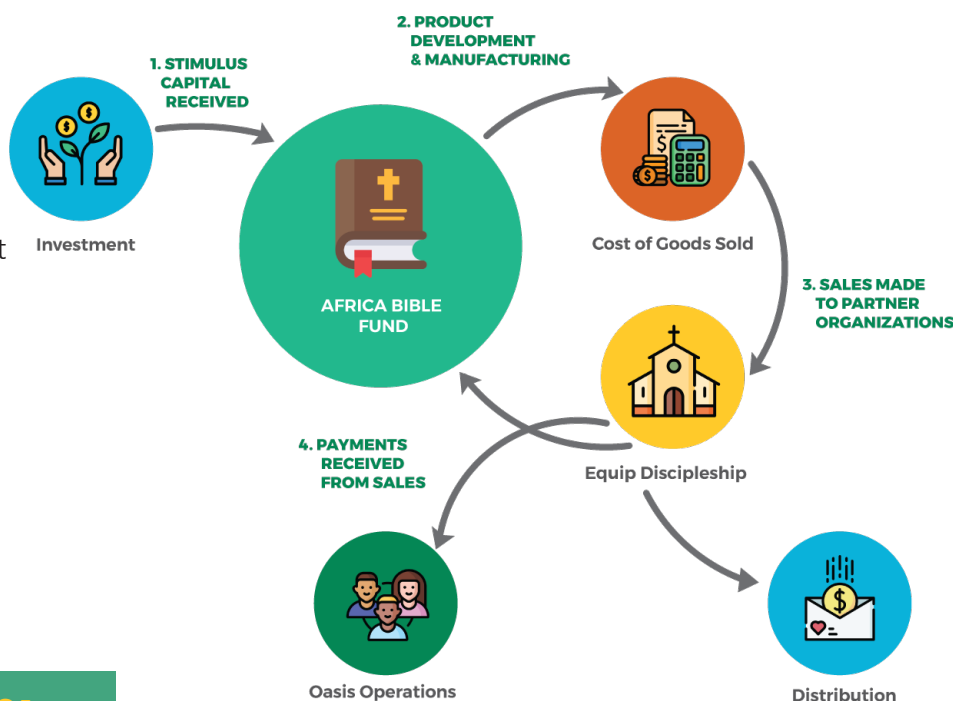

The ABF LLC. is an investable holding company that holds the COGS for Oasis International. You are investing in a tangible asset: books and Bibles (80%+), shipping, and royalties. The ABF sells books to Oasis for cash only at a margin, yielding a 4% return and creating sustainability!

## RISK & REWARD

Stock is currently held in seven warehouses around the world, including four in Africa. The major risk is the loss of stock in the advent of a catastrophic event in Africa.

Investment into this fund will:

- ▶ Grow discipleship
- ▶ Create jobs in Africa
- ▶ Build sustainable systems
- ▶ Equip pastors and students

## A TRUSTED INVESTOR IN AFRICA

Oasis has been working in Africa for **30 years**. Our staff and board have distributed **more than one billion bibles** and we have invested **over four million dollars** in content and distribution infrastructure.

## THE OPPORTUNITY NOW

Oasis customers are organizations that represent at least 10,000 consumers, including schools, mission and relief agencies, churches, and bookstores. The order pipeline for 2025 is growing quickly, so please contact us about this incredible opportunity!
