

## CONTRIBUTORS

Hundreds of theologians, pastors, and leaders from 50 countries worked on the *Africa Study Bible*. These scholars contributed to the *Africa Study Bible* by their writing, reviewing, and translating. Following the mandate from the Founding Committee of the *Africa Study Bible*, they represent the diversity of Africa by language, gender, and countries. A few who may have been born on other continents added specific theological expertise or lived a substantial part of their lives in Africa, so their insights and contributions also help us view the Scriptures through African eyes.
